TRIM (cut) BLEED SAFE AREA

How to use: 1) Set your document to CMYK at the envelope size (9.5 × 4.125 in for #10, 7.25 × 5.25 in for A7). 2) Put your design on the ARTWORK layer. 3) No bleed to the edge on envelopes unless full-bleed printing is quoted: keep everything inside the blue SAFE AREA (1/4 in from the edges). 4) Leave the postage area and the postal barcode area clear. 5) Delete or hide the guide layers before you export a PDF.
